

Interactive comment on “Switchgrass ecotypes alter microbial contribution to deep soil C” by Damaris Roosendaal et al.

P.D. Hallett (Editor)

paul.hallett@abdn.ac.uk

Received and published: 22 February 2016

Please see the 2 sets of referee comments provided for your manuscript. Both are favourable but suggest minor edits that would improve presentation. Please address these comments online and prepare a revised version of your paper. Best regards,
Paul Hallett Technical Editor
