Thanks for the kind words about our manuscript, and for the valuable comments.

P1, L 20: the word below is correct. We are talking about the subsoil here (see first part of the sentence) , and the panlayer is at the top of the subsoil. The panlayer is less permeable than the soil below it.

P3, L28: density refers here to dry bulk density, so we replaced density by dry bulk density

P8, L27: correct, relative density is relative dry bulk density.
