

Topical Editor Decision: Publish subject to minor revisions (review by editor) (05 Sep 2019) by Karsten Kalbitz

Comments to the Author:

Thank you very much for the revision you did. You really improved the manuscript a lot and there are just some minor issues which need to be addressed. I added my comments directly to the pdf files of the manuscript and the supplement. I will send you the supplement in an extra email because the websystem of the journal does not allow to attach two files.

Answer :

Thank you for your interest in our work and your minor comments to improve our the manuscript. I changed as you suggested the minor corrections in the text and in the supplementary materials. They are highlighted in red.

I still think that Fig 2A is important to understand what we have done. I have changed the figure caption as you suggested. Please tell me if it is clearer.

I also added two sections before the acknowledgements as requested "author contribution" and "competing interests". The references were carefully checked.

Sincerely,

Tiphaine Chevallier, on behalf of the authors
