

Author's response

Dear editor,

I want to thank you and the reviewers for the valuable feedback on the manuscript. It has become a very nice paper.

In this last version I processed last textual remarks made by Sebasti n Salvador-Blanes. I adopted all remarks, except for the comment on the colours in Fig. 3. I think that this suggestion will make the legend of the Figure more difficult to understand. Instead, I added an extra line in the captions, clarifying the meaning of the colours.

With best regards,

Marijn van der Meij
